

Cemetery Road Crossing Closed

Crossing

LUXAIR AND DRIVE-mere will also be closed to traffic. The Kokosing Construction Company is working cooperatively with the City, and will inform them when this will take place, so necessary detour signs can be erected. Also, during construction, access to businesses in the construction area will be made available to customers.

Although detouring may seem inconvenient at times during the coming year, residents should keep in mind the inconvenience will be well worth it, considering the benefit derived from the underpass.

Two Streets To Be Closed

Two streets will be closed in Hilliard — one Tuesday and the other Nov. 15 — for construction of a railroad underpass on Cemetery Rd., Safety Director Roger Herman said.

S. Norwich St. will be closed at Linda Rd. Tuesday and Wednesday. There will be no access to Norwich St. from Linda Rd., Herman said.

Cemetery Rd. at the ConRail tracks will be restricted to one lane of traffic starting Thursday and will be closed between S. Norwich Rd. and Luxair Dr. on Nov. 15. It will be closed until the project is completed, which is expected to be mid-November, 1977.

The building with ✓ was first to GO!
